**Advocate for a greener future by making solar technology accessible.**

# DISTRIBUTORS

**adani**

**Solar PV Modules**

**Sheets and Structures**

**EV charges**

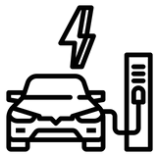

**Switchgears**

PROFIT GROWTH SIMPLIFIED

# EV CHARGING

EV charging solutions for C&I and residential clients is the growing requirement for the increasing acceptance of EV.

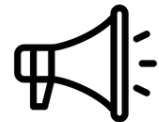

AUPL addresses the clients need with respect to the charging solutions for the EVs since the awareness with respect to the charging requirement and type is low in the industry and hence Akip's team helps in establishing the right charging infra in sync with the available power at clients scope

**Sheets and Structures**

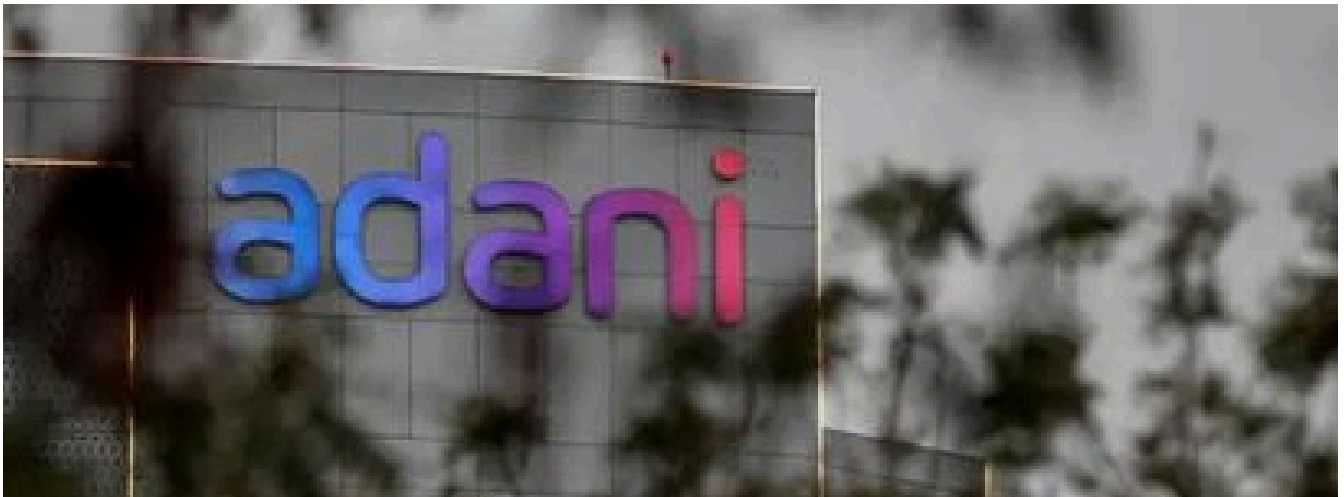

**Infrastructure Establishment**

**Awareness Enhancement**

## ADANI SOLAR

Adani is the biggest Solar Cells & Module manufacturer in India and plans to become the second biggest in the World by 2030.

They happen to be currently the most bankable Solar Module manufacturer(Domestic)' and hence enjoy the famous Ariel Insurance program where the customer along with the world class product, does not only get the peace of mind assured by one of the biggest conglomerate of india for 30 years but also get the insurance baking thereby making it the most reliable Module brand of India.

## TATA BLUESCOPE

Bluescope Solar Structures Well known for their Sheeting and structure business, TBSL enjoys the space of the biggest brand in- the segment. They provide the most stable product which have proven even in the most vulnerable zones of India resulting from periodic thunderstorm

## GOODWE INVERTERS

Known for their reliability and single quality standards for the multiple markets spread across the world. The brand stands for the lower turn around time for service requests and sturdy operational capability which is of prime importance for Indian Climatic situations.

## PAJVA - IVIS

Well known brand visibly known for its breakers and panels along with innovative sensors with applications in many segments must helps in providing comprehensive remote-based monitoring
